SUBJECT: Bracketed Insertions, etc.

BILL No. AND SPONSOR:  
SB 799 by Senator  
Dunn & others

I. SUMMARY:

This reviser's bill conforms various sections of the Florida Statutes to the editorial additions or substitutions marked by bracketed insertions, and editorial deletions marked by ellipsis, in the Florida Statutes 1977. These changes were proposed by the previous reviser in order to correct typographical and grammatical errors, to remove inconsistencies and redundancies, to ratify duplicate publications, and to otherwise improve the clarity of the statutes and facilitate their correct interpretation.

Each proposed change was reviewed before its inclusion in this bill. In a few cases, it was decided to exclude a proposed editorial change from this bill. This bill also includes those insertions and deletions dealt with in other reviser's bills, mainly those insertions and deletions made for purposes of conforming the Florida Statutes to new governmental reorganization laws.

Similar to H 1674.
